

## SECURITEL BENEFITS AND HOW IT COMPARES

### WHO WOULD BENEFIT BY USING SECURITEL?

Clients who need a monitored security service that provide *high security with integrity* will benefit.

SECURITEL provides effective protection for both **commercial and high-risk** residential clients.

### WHAT ARE THE BENEFITS?

- 1        **Reliability** Dedicated Security Network that is fully duplicated.
- 2        **Economical** in comparison with all other high security systems.
- 3        **Distance independent pricing** within the service area.
- 4        **Speedy installation** --- because it attaches to the existing telephone line
- 5        Unlike a dialler doesn't interfere with the use of the telephone.
- 6        *No more dialler initiated phone calls added to your clients phone account. SECURITEL'S* tariff is independent of the clients phone bill. When you consider the phone calls the digital is currently making, Securitel Monitoring is cheaper and provides a higher level security monitoring.

### WHAT HAPPENS IF THE CUSTOMER'S TELEPHONE LINE IS CUT?

If the telephone line is cut (deliberately or by accident), the SECURITEL agency is alerted automatically within seconds.
